

Electro Spa In The Sky

LAS VEGAS, Nev., April 5, 2016 (SEND2PRESS NEWSWIRE) – Madame et Monsieur, an Electro-Slim Therapy™ company, joins forces with NV Jets to offer its exclusive Electro-Slim Therapy treatments on their charter flights.

Private aircraft passengers will arrive at their destination relaxed, energized and rejuvenated after they've experienced cellular detoxification and muscle rehabilitation thousands of feet in the air. A one-hour treatment is equivalent to a six-hour workout.

The exclusive Electro-Slim Technology™ is a custom process designed to promote circulation, detoxification and muscle rehabilitation. The unique spa treatment uses FDA-approved equipment that specializes in area-specific body sculpting using skin contact electrodes.

These electrodes deliver rhythmic waves of pulses in three unique modes in 20-minute intervals and accomplish a non-physical, full body workout. The powerful muscle contractions result in muscle rehabilitation and overall circulatory benefits which combat jet lag, fatigue, and other stress-related issues that often occur during travel.

"We are excited to join forces with NV Jets to provide our exclusive service to their charter jet passengers," Robey Taute, co-founder Madame et Monsieur, says. "The future of private air transportation is rejuvenation and relaxation. Passengers will arrive at their destination ready to take on the world."

About Madame et Monsieur:

Madame et Monsieur (<http://www.madameetmonsieur.com/>) was founded by Robey and Ria Taute in 1983 in South Africa.
