

Enviromax Announces Complete New Line of Revolutionary External Prostate Massagers

ANCHORAGE, Alaska, Sept. 8, 2014 (SEND2PRESS NEWSWIRE) – External prostate massage is a safe, easy, and fun way for men to learn how to stimulate their prostate, says men's health product manufacturer Enviromax.

"With our new product line, men simply sit on an external prostate massager to increase circulation to their prostate," says Adam McVay, Owner/Inventor, at Enviromax. "Increasing circulation has many health benefits according to research studies conducted by prestigious universities including Harvard Medical School. As an extra benefit, prostate massage can also make men feel better than they ever dreamed possible!"

The original Prostate Cradle was created in 2004 as the world's first patented external prostate massager. "The Cradle" was introduced as a device for men's health, but soon after it was introduced, Enviromax customers began writing in to say they were having the best sex of their lives while sitting on the Prostate Cradle.

The next model created by Enviromax was the Extra Soft Prostate Cradle. It is designed for men with sore or tender prostates. Enviromax's third model, the Prostate Jewel, was created due to customer demand for a more firm massager. "The Jewel" has the same anatomically correct shape as the Cradle, but without the cushioning holes for more stimulation to the prostate.

Enviromax is very excited about its newest and most affordable "entry-level" prostate massager called the Prostate Joy Pillow. The "Joy Pillow" is truly the softest prostate massager ever invented.

"Similar to the Cradle, the Joy Pillow can be purchased with a built-in vibrator feature that really helps to get men's prostate motor running!" adds McVay.

All Enviromax massagers are available in different sizes and colors.

"Men all over the world are discovering the joys of external prostate massage because it is so easy and accessible. No oils or towels are required. External prostate massagers offer both a complement and an alternative to traditional internal prostate massagers," explains McVay.

Enviromax products have been praised by Medical Doctors, urologists, and Licensed Massage Therapists. The Prostate Cradle has been featured in Muscle & Fitness magazine, as well as two popular books, "Healthy Prostate" by Ronald Bazar, and "The Ultimate Guide to Prostate Pleasure" by Charlie Glickman, PhD.

External prostate massagers are for adult men, ages 18 to 80+ years old, who want to maintain their physical health and improve their love-life. This includes men who are familiar with prostate massage, and men who may have been turned off in the past by traditional internal prostate massagers.
