

Equation Technologies Expands Solution Portfolio with BambooHR

TORONTO, Ontario, Aug. 8, 2012 (SEND2PRESS NEWSWIRE) – Equation Technologies (www.equationtech.com) announced today that it has added BambooHR to its cloud-based, Software as a Service (SaaS) solutions portfolio. BambooHR is a human resource management system designed to relieve HR professionals from managing operations on spreadsheets or paper-based workflows with cloud-deployed functionality.

“Keeping with our strategy to provide the best-of-class cloud solutions for our clients, we are excited to offer BambooHR,” said Pat Wade, president of Equation Technologies. “After a detailed evaluation of HR solutions, we found BambooHR offers exceptional value for the investment. The solution has a brilliant interface, robust feature set and a price tag that make BambooHR ridiculously better than using spreadsheets. It’s a perfect fit for our clients.”

Equation Technologies will offer BambooHR (www.equationtech.com/bamboohr.asp) as a solution to organizations with between 50 and 3,000 employees to assist in government compliance surrounding HR reporting; to provide better workflows for data collection and HR actions; and to provide easier access to information. Subscription-based pricing makes it budget-friendly to companies looking to improve efficiency while the cloud-based nature of the solution makes it easy to deploy resulting in companies being up and running of the solution and a very short period of time.

“We love working with smart businesses like Equation Technologies,” said BambooHR Channel Manager Brenton Williamson. “They understand that the age of expensive, complicated and closed business software is over. Affordable, intuitive, and open applications are taking over and Equation Technologies is quick to share these systems with their clients.”

Equation Technologies has developed a robust integration engine for BambooHR that will connect with any system for data flow or a 360-degree view of information.

About Equation Technologies:

Equation Technologies has been a leader in the implementation of ERP technology, systems integration and advanced custom development since 1985. Partnerships with proven technology leaders including Avectra, BambooHR, Intacct, Sage and Deltek allow Equation Technologies to help clients effectively manage finances, projects, people, constituent relationships, and assets.

The company has received a variety of awards including Sage President’s Circle, Accounting Today magazine’s “Technology Pacesetter,” 2012 BSI Top 100 VAR, and the Sage Customer Excellence Award for its high level of client satisfaction.
