

# Ethically-Sourced Vanilla Now Available Online

ORLANDO, Fla., May 22, 2019 (SEND2PRESS NEWSWIRE) – Bakers everywhere know the importance of using quality ingredients in their products. Take vanilla beans for example – their unique flavor can enhance the worlds of both savory and sweet foods. However, according to Native Vanilla, an Orlando-based vanilla provider, vanilla beans can be challenging to find, purchase and have delivered to your door in a timely manner.

Send2Press® Newswire

Additionally, when sourcing vanilla beans, consumers often run into vanilla look-alike products that are a much cheaper synthetic version, made from compounds extracted from paper waste, pine bark, and even cow manure. With low regulations mandated by U.S. law, these vanilla substitutes can also contain several chemical additives.

Considering the baking industry is a [dynamic part of the U.S. economy](#), accounting for about \$311 billion in total economic output or roughly 2.1 percent of GDP, the importance of utilizing quality products is crucial. Now, thanks to [Native Vanilla](#), a company that sells organically-farmed, gourmet vanilla beans, consumers can now conveniently purchase fairly traded non-GMO vanilla beans online.

“We are thrilled to offer our customers the option to purchase our premium vanilla beans at a remarkable price with fast delivery,” said Dan Edmiston, founder of Native Vanilla. “As the demand for this staple rapidly grows, we will continue to exceed expectations and excel in bringing our clients exceptional quality, sustainably-sourced vanilla products.”

Native Vanilla has already received multiple reviews from pleased customers who have ordered online.

“We have found that our customers enjoy the unbeatable quality of our vanilla products,” said Dan. “They continue to express that they are extremely satisfied with the ease of access to such an essential product for their recipes. Knowing we are making a difference in their experience makes us very happy and encourages us to keep raising the bar.”
