Send2Press® Newswire

Fabricare has always been progressive, with the customer at the forefront of each and every decision made. This includes the decision to have a central plant model with various drop off stores. The central larger plant model has allowed for more efficiencies, better quality, additional new equipment for additional services like sheets, leathers, etc.

This model also allows customers to come into a clean, quiet, conveniently located storefront without the noise and clutter that would be encountered at a plant. One such drop off store opened its doors 15 years ago and is the Noroton Heights location at 312 Heights Road by the train station. Due to renovations in the shopping center, Fabricare has relocated to 264 Heights Road underneath Palmer's Market and next door to the Post Office. In this new

location, customers will experience the same excellence in customer service that Fabricare is known for.

As always, customers are also offered convenient services such as free pick up & delivery of their laundry and dry cleaning, and can even place orders with the touch of a button through Fabricare's FAB APP (available on the App Store and Google Store).
