

FonePaw Updates Android Data Recovery with Photo Recovery Supported

HONG KONG, China and NEW YORK, Sept. 29, 2015 (SEND2PRESS NEWSWIRE) – Swipe left. Swipe right. Oh, no! I didn't mean to delete the photo album. Why Me? Thankfully, FonePaw has updated its [Android Data Recovery](#) to V1.2.0 with new features for supporting recovery of deleted photos, audio, videos and documents, bringing more performance and capabilities to Android users. Till now, FonePaw Android Data Recovery enables users to recover deleted pictures, music, videos, contacts, messages, call logs and documents from Android phones and tablets.

“Whether you mistakenly delete a photo album on your Android phone or intentionally delete an array of text messages but regret at once, FonePaw Android Data Recovery provides you the workable solution to get the missing data back,” said Ivy Bruce, product manager of the application. “The updated Android Data Recovery makes it more comprehensive and easier to recover and backup Android device contents, along with higher success rate of recovery.”

This application is designed to get you out of a tight spot if some of your precious files have gone missing. The app, for Windows, connects to your Android device and vigorously scans both the internal and external phone memory of the device to identify lost or deleted files – from your photos, videos and audio files, to your contacts, messages and call logs as well as document files. Then, it restores the lost or deleted data with one click.

Feature Highlights:

- * Recover deleted SMS, contacts, photos, videos, audio, documents from Android devices and SD Card.
- * Thoroughly scan the SD card and the internal memory of your Android phone.
- * Preview all recoverable data and selectively recover what you want.
- * This program can export all detected Android data to PC. If necessary, you can keep them on computer as a backup.
- * Supports multiple Android devices like Samsung, LG, HTC, Sony, Motorola, ZTE, HUAWEI, etc. The latest Samsung Galaxy S6, Samsung Galaxy Note 4, Google Nexus 6, Sony Xperia Z3, LG G4, HTC One M9 are all included.

Pricing and Availability:

Android phones and tablets users can easily download the free trial of FonePaw Android Data Recovery by clicking <http://www.fonepaw.com/downloads/android-data-recovery.exe>.

This program works well with Windows 10/8.1/8/7/Vista/XP and it is fully compatible with mobile phones and tablets from Samsung, HTC, LG, Sony, Motorola, ZET and Huawei running on Android OS 2.1 to 5.1.
