

Generate Secure Payment Link and Have Monies Direct Deposited Into Your Bank

DEERFIELD BEACH, Fla., Feb. 11, 2016 (SEND2PRESS NEWSWIRE) – RedFin (www.redfinpos.com) today announced the launch of a web-based electronic bill payment and presentment (EBPP) platform to its payment gateway. The new platform allows merchants to generate and email secure payment links to customers who can then make payments through a secure payment form and/or make donations online. When done, vendors will receive direct deposit of funds into their bank.

The new EBPP enables users to send and track bills via the integrated dashboard, while allowing customers to remit funds electronically and expedite payment.

Links, correspondence, and a secure site are created with a clean, easy-to-use interface reducing both hard and soft costs associated with the billing and collections process. Billing is instantly traceable.

“It’s a win/win for merchant and client,” says Frank Bocchino, RedFin media representative. “By providing electronic bill presentment and payment, RedFin customers can raise consumer engagement by 30 percent while reducing document delivery costs by 50 percent.”

About RedFin:

RedFin POS provides point-of-sale (POS) solutions to all merchant types. RedFin provides PCI-certified, market-ready POS solutions for Mobile Merchants, Hospitality, Wireless, Retail, Transportation, and Enterprise businesses.

RedFin POS provides 24/7/365 Class A support, distribution, wireless activation, billing and fulfillment for third-party products and services. RedFin Holdings services ISO/MSP acquiring companies while managing the RedFin Gateway, and POS terminal/solutions help desk.
