

Getec Industrial Announces the Launch of Its Redesigned Website

TORRANCE, Calif., Feb. 13, 2019 (SEND2PRESS NEWSWIRE) – Getec Industrial announces the launch of its redesigned website. The site has been updated with a new look and feel that incorporates the latest features of online web design, as well as optimizing the site for mobile devices such as phones and tablets.

Send2Press® Newswire

The site now features a [simple online contact/quote form](#) that can be conveniently accessed on just about every page of the website. Another new feature of the site is a dedicated area for videos about Getec Industrial, its products and its processes.

The site has an all new look and feel with colorful graphics, an easy-to-use menu navigation, and accessible information about all of Getec's goods and services.

"This new design does a better job showing off our various thermal management products and capabilities," says Hart Cardozo III, Senior Vice President of Logistics and Accounts. "The site also shows you why Getec is your go-to resource when it comes to turnkey thermal solutions manufacturing."

The site also provides details about [Getec Industrial's commitment to quality](#) through their RoHS compliance and their ISO:2015 Certification, including Getec's quality management principles to help guarantee a positive customer experience.

Be sure to check out the new Getec Industrial website design at <http://www.getecna.com/>.
