

Healthcare Insights Introduces New Value Proposition at HFMA Region 11 Symposium

LIBERTYVILLE, Ill., Jan. 7, 2015 (SEND2PRESS NEWSWIRE) – Hundreds of hospital finance executives from Alaska, California, Hawaii, Nevada, Oregon, and Washington are convening in San Diego next week to discuss critical issues facing hospitals in the Western states and beyond. Among the exhibitors at the Healthcare Financial Management Association (HFMA) Region 11 Symposium and Trade Faire will be Healthcare Insights, LLC, (HCI) in its first trade show appearance since [merging with NOMISe, Inc.](#) in October.

The HFMA regional conference will afford HCI the opportunity to promote its new value proposition as a unified source for integrated, end-to-end financial management solutions that help hospitals lower costs while delivering higher quality patient care. With its newly combined capabilities, HCI now not only provides Best in KLAS software and industry-leading after-sale support, but also proven expertise in complex areas such as cost accounting and patient analytics.

“The merger created a unique synergy that answers a critical industry need for more robust knowledge transfer, sustained support, and expertise,” said David Beto, HCI managing partner, business development.

“As we work with hundreds of hospitals around the country, finance leaders tell us one of their chief concerns is buying or leasing software only to be left on their own after the initial implementation and training to try to wrest full value out of its functionality,” Beto added. “By making sure our clients acquire knowledge, not just data, we are fundamentally changing the way hospitals can use, adapt, expand, and generate bottom-line benefits from their decision-support and financial management software tools and solutions.”

Healthcare Insights will be exhibiting in Booth #311 during the Symposium, which is slated for January 11 – 14, 2015, at San Diego’s Manchester Grand Hyatt.
