

HitPaw Screen Recorder Simplifies Process for Educators, Gamers, Bloggers or Any Other Content Creators to Make Videos

NEW YORK, N.Y., May 26, 2021 (SEND2PRESS NEWSWIRE) – HitPaw releases a new software – HitPaw Screen Recorder. With its easy-to-use UI, all beginners can use it without any hassle.

The advertisement banner features a vibrant orange background with abstract circular shapes in shades of green and yellow. On the left, a laptop screen displays a landscape with mountains and a smaller inset video of a couple kissing. The HitPaw logo is in the top left corner. The main headline reads "New Release: HitPaw Screen Recorder" in white and black text. Below this, a white box contains the text "The Easiest Solution To Record Screen/Webcam And Picture In Picture". To the right of the box is a 3D rendering of the software's product box. The HitPaw logo is also present in the top left of the banner area.

HitPaw Screen Recorder

The Easiest Solution To Record Screen/Webcam And Picture In Picture

Send2Press® Newswire

So, what are the features and advantages of [HitPaw Screen Recorder](#)? Here is the overview to check:

1 – Three Recording Modes

Record Screen – Capture the part creators want to record. Drag the selection and adjust the capture area size. With the magnifier, creators can locate at the accuracy position.

Record Webcam – Put creators' faces on the video is necessary when creators

record online courses, reactions videos, study videos, etc. HitPaw Screen Recorder not only can record creators' face, but also support change creators' camera, its resolution, FPS and mirror the video.

Picture in Picture – Record picture in picture means that creators can record creators' screen and face at the same time. It has 4 options: Screen+Webcam, Webcam+Screen, Webcam, Screen and allows creators to switch any time. It also can change the PIP position and size based on creators' needs.

2 – Capture Mouse and Keyboards

Capture Mouse – Capture creators' mouse lets video watchers understand what part creators are talking about. With the mouse effect setting, it can make the mouse clearer and more interesting.

Capture Keyboards – Open “Capture Keyboards”, it allows video viewers know clearly what actions creators are doing on the keyboard. It is also available to change its color.

3 – Segment Saving

Segment saving in HitPaw Screen Recorder helps creators auto save the recorded video in every 30 mins or the duration creators set.

4 – Hardware Acceleration

Hardware acceleration enhances HitPaw Screen Recorder working speed on creators' computers.
