

# HousingWire Names Global DMS a 2020 Tech100 Award Winner for EVO Appraisal Management Software

LANSDALE, Pa., March 10, 2020 (SEND2PRESS NEWSWIRE) – Global DMS, a leading provider of cloud-based appraisal management software, announced that it has earned a spot on HousingWire’s seventh annual Tech100 awards list, which recognizes the most innovative technology companies in the U.S. housing economy, spanning the real estate mortgage industries.

Send2Press® Newswire

“This year’s Tech100 winners blew past innovation, moving beyond innovation to transformation,” HousingWire’s Associate Magazine Editor Kelsey Ramírez said. “In both the real estate and mortgage sectors, fintech companies continue to create new ways to approach the housing process, improving efficiencies, cutting costs and creating a new experience for all parties involved.”

Global DMS® was recognized for the successful development and roll-out of EVO-Res™ – the industry’s next-generation valuation management technology for residential lenders, AMCs, and appraisers. EVO-Res offers state-of-the-art technological advances that allows users to work the way they need to work,

which is very different than other platforms currently available in the market.

EVO-Res is user role-based, providing a customized experience for each user that includes separate dashboards and task lists to help drive optimal performance. The platform is also 100% configurable—allowing users to configure every field and/or add new fields on the fly—and provides custom order forms, review forms and detailed reporting, where users can build the forms and reports they need in minutes. Previously, these types of changes would require costly and time-consuming development intervention.

“We put a great deal of thought into the design and underlying functionality of EVO-Res, collaborating with clients and diligently operating in an R&D mode for years,” said Vladimir Bien-Aime, President and CEO of Global DMS. “We’re thrilled that our efforts landed us on HousingWire’s 2020 Tech100 list and honored to receive this recognition.”

“The winners of the 2020 HousingWire Tech100 Mortgage and Real Estate awards are truly the most impactful and innovative companies in housing,” said HousingWire CEO, Clayton Collins. “Not only do these companies empower their clients and users, they are supporting a more efficient, accessible and sustainable housing economy.”
