

iAnyGo is Now Available: A Brand New iOS Upgrade and Downgrade Tool

NEW YORK, N.Y., Sept. 29, 2017 (SEND2PRESS NEWSWIRE) – Tenorshare's Any-data-recovery.com has launched **iAnyGo**, an easy tool to upgrade or downgrade iOS system on iPhone, iPad and iPod without using iTunes. One amazing feature of this program is the upgrading and downgrading are both done from local firmware, no need to worry about update failure or stuck issues due to poor Wi-Fi network connection.

Send2Press® Newswire

To be free of iTunes limitation and poor Wi-Fi trouble, iAnyGo brings Apple fans a completely new experience for iOS update and downgrade.

“Just like the name, go with any iOS version you like,” said company CEO Mr. Mike.

Update to iOS 11 without OTA:

To update to iOS 11, iAnyGo provides a built-in firmware. Not via iTunes or OTA, you can upgrade iOS 11 through local computer. No need to worry about an iPhone/iPad stuck on preparing update, update requested or verifying update due to poor Wi-Fi connection or low battery.

Downgrade to any iOS Version you like:

If you don't like the newest iOS, or your iPhone gets extremely slow and apps keeps crashing on iOS 11, iAnyGo is a revelation for you. Unlike iTunes, it lists all of the former iOS versions and allows you to go back to any former version, including iOS 10, 9, 8.

iAnyGo comes with a series of prominent features, including:

- One-click to complete iOS upgrade or downgrade without iTunes or data loss.
- Allow to select the firmware version to install or uninstall freely.
- Upgrade and downgrade from local firmware, never need to worry update failure due to poor Wi-Fi connection.
- An alternative to restore iPhone smoothly and quickly.
- User-friendly interface and simple procedures make it easy for everyone to operate.
- Support all iOS and beta versions, including the latest iOS 11 and iOS 11 beta 10.
- Automatically list all the iOS beta firmware without developer account.

Price and Availability:

iAnyGo is free to upgrade iOS. To downgrade iOS on iPhone, users need to register.
