

# IDS Creates Internal Team to Manage Mortgage Doc Prep System Integrations

SALT LAKE CITY, Utah, Nov. 6, 2014 (SEND2PRESS NEWSWIRE) – Mortgage document preparation vendor International Document Services, Inc. (IDS), announced it has created an internal team devoted solely to developing and maintaining integrations between its flagship document preparation system, idsDoc, and its third-party partners.

“Doc prep systems don’t operate in a vacuum,” said Mark Mackey, executive vice president at IDS. “Collaboration and connectivity are the name of the game in today’s automated mortgage operations environment. Because our integrations play such a key role in the idsDoc user experience, we felt it was important enough to establish a team dedicated to keeping our integrations best-in-class.”

Working in conjunction with the IDS customer service department, the integrations team will collaborate with its loan origination system (LOS) partners to increase idsDoc interface functionalities, such as two-way transferring and blind interfaces. The team will also work to develop idsDoc interfaces to include more core data from mortgage documents and minimize manual data entry. Additionally, the Integrations team will broaden IDS MISMO 2.6 offerings and will lead the transition of idsDoc to MISMO 3.3. All integrations team members will participate in MISMO training and certification courses, using this knowledge to implement mortgage document data into the new industry standard.

“We are excited to have gathered a team of highly-skilled individuals who will help IDS become more serviceable to our loan origination system partners and our customers accessing idsDoc through an LOS,” said David Clement, director of operations at IDS. “With their combined knowledge and skill sets, this team will enhance our customer service offerings and heighten our capacity to support our customers.”
