

iMobie Introduces AnyTrans 4, Giving the Most Complete iOS 8 Content Management Solution

SAN FRANCISCO, Calif., Sept. 16, 2014 (SEND2PRESS NEWSWIRE) – iMobie Inc. (www.imobie.com), an innovative software company, today announced **AnyTrans 4** to give users the best support on iOS 8. It introduces a set of breakthrough features that are tailored for managing music, photos, messages, notes, and all the iOS 8 content. Meanwhile, the Apple devices' content syncing performance has been boosted up – about 3 times faster than regular iTunes syncs.

“Inspired by iOS 8, AnyTrans gives users the most powerful, easy-to-use and complete content management solution for their Apple devices,” said Frank Kong, the founder and CEO at iMobie Inc. “Similar with **PhoneClean** and **PhoneRescue**, AnyTrans is just another must-have iMobie essentials for every iOS 8 user.”

Check All Features Designed for iOS 8:

Manage iOS 8 media content completely – AnyTrans can transfer and backup every piece of iOS 8 media content, from a whole library of music to any photo, no matter if it's in Camera Roll, Photo Stream or even the newly introduced Photo Share.

Export iPhone personal info for better use – As soon as iOS 8 brings up the audio / video iMessage, AnyTrans simultaneously supports this feature, which is the first in the market. It can also export other iOS personal info like SMS, iMessages, notes, calendar events, reminders, Safari history, bookmarks, etc.

Uniquely integrates with iCloud – also supports the latest iCloud for iOS 8, AnyTrans sets another precedent that allows users, especially users with Windows OS PCs, to enjoy the benefits brought by iCloud, a feature exclusively available on Macs.
