

iMobie Releases PhoneRescue – an iOS Data Recovery Software for Retrieving Lost Personal Data and Media Content on iPhone iPad

SAN FRANCISCO, Calif., June 19, 2014 (SEND2PRESS NEWSWIRE) – iMobie Inc. (<http://www.imobie.com/>), an innovative iOS related software developer, announces the release of **PhoneRescue** – a comprehensive iPhone data recovery solution that is fully capable of retrieving almost all the commonly used personal data and multimedia files directly from an iPhone, iPad, iPod touch.

By supporting up to 22 types of iOS content, PhoneRescue gives a new choice that helps iPhone, iPad users find back their lost photos, messages, call history, voicemail, Safari bookmarks, music, videos, books, etc.

“We’ve successfully introduced the world-class iOS file management and iPhone cleaner software which are well-known as **AnyTrans** and **PhoneClean**. This time, the leading cause that motivates us to present PhoneRescue is to give our users the peace of mind in knowing all their valued iOS content is recoverable, no matter how the situation turns out,” says Frank Kong, the founder and CEO at iMobie Inc.

Features:

1. Recovery on almost all types of iOS content – including up to 22 types of personal data, multimedia files, and even app document and files.
2. Support exporting various files with different file formats – PhoneRescue supports exporting the most common data with its corresponding format, and conveniently copy-n-paste the output to the clipboard.
3. Introducing the unique iOS Data Undelete feature – helps retrieve the mistakenly deleted data with one-of-a-kind Choose-items-before-scanning mode to ensure the whole recovery process as fast as possible.

Supported Content:

Personal Data – Contacts, Call History, Messages, VoiceMail, Calendar, Reminder, Notes, Safari Bookmark, Safari history

Media Data – Camera Roll, Photo Stream, Photo Library, Music, Video, Ringtone, Playlist, iBook, Audio book

App Data – App Document, App Photo, App Audio, App Video
