

iMyfone Umate iPhone Space Saver New Version Released

NEW YORK, N.Y., Nov. 23, 2015 (SEND2PRESS NEWSWIRE) – On Nov. 22, iMyfone Technology Co., Ltd released the new version of iMyfone iPhone Space Saver V2.5.0 and renamed it as iMyfone Umate. Now iMyfone Umate can do more for iPhone users with its new and remarkable features. Also the user interface became clearer and easier to use to enhance users' experience.

As a professional technical company, iMyfone provides the best services to iPhone users as always. They study what users need and they try their best to fulfill. Their high quality products have gained millions of positive comments. iMyfone Umate is an effective iPhone/iPad/iPod Touch Storage Saver. With this program you can make more space for your needs such as iOS upgrading, apps installing, photo storing or other storage needs. Mac users, who want to free up iPhone space, can use iMyfone Umate for Mac from <http://www.imyfone.com/iphone-space-saver-mac/>.

The 2.5.0 version of iMyfone Umate not only changed its name but also brings big, new features. Now iPhone users can use iMyfone Umate to manage and uninstall their third-party apps to reclaim storage space besides Junk File Clean-up and Lossless Photo Compression. With this feature, iPhone users can preview how much space has been taken by each app and uninstall the apps which are unused but occupying much space. Also the junk files scan system has been improved to make the junk files clean-up more effective. What's more, iOS 8.3 and below version are supported to clean up third-party apps' junk files. Some minor bugs have been fixed and the program's stability has been improved.

All in all, the 2.5.0 iMyfone Umate is an easy-to-use yet effective tool to free up iPhone space and there are still more new features waiting to be discovered. More details at <http://www.imyfone.com/iphone-space-saver/>.

"Apple is still offering 16GB iPhone for its customers who don't need a large storage iPhone or who have a limited budget. But the iOS takes about 4GB space first. The remaining space is so limited that users can't even install apps or take photos as much as they need. Our product can free up iPhone space by mass cache files clean-up and photo compression. Now they can manage and uninstall apps to release more space with the new version of iMyfone Umate. But we won't stop developing more features to maximally free up space for iPhone/iPad/iPod Touch users," says Mr. Huang, the CEO of iMyfone Technology Co., Ltd.
