

# iToolab New Release: RecoverGo (WhatsApp) to Restore Deleted WhatsApp (Business) Messages without Backup

NEW YORK, N.Y., May 31, 2022 (SEND2PRESS NEWSWIRE) – iToolab Co Ltd, a software development company, has come up with a new solution – [RecoverGo \(WhatsApp\)](#) that’s designed to make WhatsApp data recovery a hassle-free task for both Android and iOS users. With iToolab RecoverGo (WhatsApp), you can easily get back their deleted WhatsApp messages and other WhatsApp data and restore it to their system for easy access in the future.

According to Mia Garcia, CEO at iToolab, “We have already released several tools to recover conventional data types from various storage devices. But our team was keen on designing a tool that specifically supported WhatsApp data recovery. That’s why, after months of continuous development, testing, and redesigning, we are here with RecoverGo (WhatsApp) – a revolutionary tool that’ll help users recover their deleted WhatsApp data in no time.”

Let’s take a look at some of the key features that RecoverGo (WhatsApp) brings to the table.

## KEY FEATURES OF IT00LAB RECOVERGO (WHATSAPP):

### 1. Recover Deleted WhatsApp (Business) Data without Backup

RecoverGo (WhatsApp) is compatible with both conventional WhatsApp accounts and WhatsApp Business accounts. So, irrespective of which WhatsApp account you were using, you'll be able to [get back deleted WhatsApp data](#) using RecoverGo (WhatsApp).

#### About iToolab:

With a passion for programming and a vision to help users deal with software glitches on their own, Mia Garcia and her team started iToolab to build a professional toolkit for all smartphone users. Earlier, the team designed iToolab only to help iOS users resolve system issues on their iPhone/iPad. But, today, the company has also ventured into the Android landscape and released a new software, **RecoverGo (WhatsApp)** – that's specifically designed to help users recover WhatsApp data from both Android and iOS. Its cross-platform compatibility ensures that users can recover data on both Android and iOS without any hassle.
