

JOSEPH EVE Will Present '4 Casino Accounting Trends to Watch in 2015' at Great Plains Indian Gaming Conference

KALISPELL, Mont., May 12, 2015 (SEND2PRESS NEWSWIRE) – Casino Accounting experts Joseph Eve and Lindan Elliott of JOSEPH EVE CPAs (www.josepheve.com) will present “4 Casino Accounting Trends to Watch in 2015” at the Great Plains Indian Gaming Conference May 18 – 20, 2015 at Mystic Lake Casino in Prior Lake, Minnesota.

“We are currently experiencing the biggest fundamental change in data technology since the initial development of the Internet,” says JOSEPH EVE Founder and Managing Partner Joseph Eve. “People, processes, and data have become increasingly connected and this will impact successful casino accounting strategy and operations.”

Co-presented by Joseph Eve and Lindan Elliot, “4 Casino Accounting Trends to Watch in 2015” will cover:

- * Continued rapid adoption of mobile computing (smart phones and tablets);
- * Increased use of business intelligence;
- * The shift to real-time accounting;
- * Continued automation of manual processes.

“Most of the accounting solutions developed for casino accounting are decades old,” notes Eve. “As a result, significant functionality and integration are not available to those organizations using these legacy systems. As a result there is an over-reliance on manual processes. Our presentation will show how updating systems will save time, money, and present key casino management data in a way that allows for greater effectiveness and profitability.”

JOSEPH EVE developed CasinoEdge powered by Intacct, a cloud-based casino accounting solution that allows CFOs and other stakeholders to receive daily flash reports from any device, streamline revenue audit, automate accounting processes and approval flow, manage multiple properties with ease, and take advantage of cloud computing benefits.
