Send2Press® Newswire

“We recently attended the SXSW Conference and received a warm welcome from the Austin community,” said Christian Drapeau, Kalyagen founder. “Paleo f(x) will be another opportunity to present STEMREGEN to our home-town Austin community at one of the world’s premier wellness events.”

STEMREGEN[®] is a unique and patent-pending blend of proprietary plant-based extracts documented to increase the number of circulating stem cells by stimulating Endogenous Stem Cell Mobilization (ESCM). [Ingredients](#) in STEMREGEN[®] have been investigated in more than eight studies for their effect on stem cell function, of which five were randomized, double-blind, placebo-controlled human clinical trials. STEMREGEN[®] has wide application in antiaging and overall health maintenance.

“The link between a lower number of circulating stem cells and the

development of [age-related diseases](#) has been well studied with numerous degenerative conditions, including diabetes, cardiovascular diseases, atherosclerosis, Alzheimer's disease, rheumatoid arthritis, pulmonary diseases, erectile dysfunction, and kidney disease," continued Mr. Drapeau. "From a therapeutic standpoint, increasing the number of circulating stem cells has been documented to enhance tissue repair or improve the course of disease formation in many degenerative conditions and overall health and well-being."

ABOUT KALYAGEN:

Austin-based Kalyagen® was founded by Christian Drapeau, author of the bestseller "Cracking the Stem Cell Code." Kalyagen® is a leader in the research and development of natural products aimed at supporting stem cell function of the body. Stem cells constitute the natural repair system of the body, and stem cell enhancers have been documented to strongly contribute to improving health and quality of life. STEMREGEN® is the first stem cell enhancer product developed by Kalyagen®. STEMREGEN® is a unique blend of proprietary plant-based extracts documented to support Endogenous Stem Cell Mobilization and provide other health benefits.
