

Kiosk and Digital Signage News from Industry Group and Kiosk Association (KMA) for Jan. 2022

DENVER, Colo., Jan 12, 2022 (SEND2PRESS NEWSWIRE) – January news from the Industry Group and the Kiosk Association: NRF is coming up this weekend and we are hopeful our retail [facial payment finalist](#) takes home the “Best Payment Innovation” award. The transactions and enrollment numbers certainly justify it.

Send2Press® Newswire

We also thank Jim Kruper with [KioWare](#) who is managing the booth. Stop by and see contactless self-order, assistive technology ala McDonalds and the new Ingenico Self-4000 terminal. He is featured on our portal page on NRF – [NRF Big Show #1606](#).

Big legal ADA news is Quest Diagnostics got very bad news on two fronts. The class action part will drive remedial actions across the entire country, and all units. That originally inexpensive kiosk has the definite possibility now of turning out to be an expensive choice.

For the upcoming DSE show in Vegas/March, besides hoping COVID will subside, we are hoping to show a cool 4K 85-inch demo deployed recently at super major retailer (they sell staples?). At NRA our odds are pretty good we will have the Samsung "KMA" kiosk in our booth (running [Nanonation](#) partner software). We are in the Tech Pavilion.

New Gold sponsors – [FEC POS](#) – now entering self-checkout (SCO) kiosk market. [American Kiosks](#) – offices here in Colorado. Custom projects is prime competency.
