Coming Events: [National Restaurant Association in Chicago](#) in May is the big upcoming event. See the dual 55 outdoor drive-thru digital menu from Keyser, a small 15" AIO for self-order and the new Clover Kiosk by Nanonation (using the Samsung kiosk). There is a social event being put on Saturday night by Intel and if interested in attended [email us](#).

ISE in Barcelona is in May. And then June 8, 2022 is [InfoComm 2022](#). AV is huge and especially for all forms of menu displays for outdoor (think Drive-Thru which is 75% of sales?). Big screens for EV charging stations at places

like Walgreens, Kohls, and now restaurants. The free advertising on Google Maps doesn't hurt.
