In other news for the Association a resource page for [Assistive Technology](#) is now available listing provider companies, noted consequences for not providing and additional resources. A companion page covering the latest [Legal News](#) is now available. This page is a running log with personal commentary on legal, privacy and patent situations. We keep track of legal news that affects the unattended self-service market.

Examples this week include the lawsuit against McDonalds for improper use of biometric data and a class action suit against over 125 Wendy's franchisees for ADA violation. Learn about PPI which is how we abbreviate Prosecution Probability Index. Our new DOJ is expressing interest in cases never before expressed.
