

Latest Power Data Recovery Tool for iOS from MiniTool Solution Ltd

VANCOUVER, Canada, March 23, 2016 (SEND2PRESS NEWSWIRE) – MiniTool Solution Ltd., a well-known software development company based in Canada, announces MiniTool Mobile Recovery for iOS version 1.1. This application is designed for data recovery from iOS devices such as iPhone, iPad and iPod touch. With help of this easy to use software, user can recover lost data from unexpected deletion, virus invasion, reset all settings, system upgrade and logical damage.

Three functions in MiniTool Mobile Recovery for iOS:

Recover from iOS Device: it can help to recover lost messages, contacts, call history, WhatsApp, notes, calendars, reminders, bookmarks, etc from iOS devices. Lost files could be recovered by using this software as long as these files are not overwritten by new data.

Recover from iTunes Backup: it retrieves data from the iTunes backup. For users who have backed up data in iOS devices, they can restore the important files by using this module.

Recover from iCloud Backup: it is capable of recovering data from iCloud backup files. If users have backed up their data from iOS devices to iCloud or auto backup has been made before data loss, this function can help to get the lost data back.

Main features of MiniTool Mobile Recovery for iOS:

Compatible with Windows OS and Mac OS: User can choose to run this application either from Windows OS or from Mac OS.

Optimization on User Interface: All interfaces in this software are neat, friendly, and concise.

Powerful Functions: No matter files were lost due to accidental deletion, iOS upgrade failure, factory restore or white apple, etc.. MiniTool [iOS data recovery tool](#) will find and fully restore all files.

Recover Various Types of Files: This tool is able to recover media data as well as text data from all iOS devices. Including Media data: photos, app photos, videos, photo stream, voice memos, message attachments Text data: messages, contacts, call history, WhatsApp, calendar, notes, Bookmark and app documents.
