

LBA Ware Launches CompenSafe University to Help Lenders Achieve Their Compensation Plan Management Objectives

MACON, Ga., Dec. 17, 2019 (SEND2PRESS NEWSWIRE) – LBA Ware™, a leading provider of incentive compensation management (ICM) and business intelligence software solutions for the mortgage industry, today announced the launch of CompenSafe University (CSU), a two-day training program designed to help lenders derive additional value from their investment in CompenSafe™.

Send2Press® Newswire

CompenSafe is the mortgage industry's go-to platform for automated incentive compensation management. With the introduction of CSU, LBA Ware extends its core CompenSafe training with a specialized curriculum that puts compensation plans into perspective for managers and executive decision-makers:

- Day one covers the essentials of CompenSafe configuration and administration. After learning how CompenSafe integrates with their own operating environment, attendees master key features such as creating branch and originator accounts, setting up compensation agreements and

automating compensation plans. Attendees gain an understanding of how non-administrators can use CompenSafe to review their production and verify pay.

- Day two addresses advanced CompenSafe administration topics such as compensation rules for terminated employees, manual adjustments, recoverable and non-recoverable draws and minimum guarantees.

Those who complete both days of the CSU curriculum may elect to become CompenSafe Certified by passing a multiple-choice examination.

“CSU creates CompenSafe power users and prepares them to become subject matter experts within their organizations,” explained LBA Ware Director of Client Success Mari Denton. “The goal of the course is to help participants move beyond the automation of existing plans. The exploration of different options within the platform will equip participants to offer strategic solutions and make informed business recommendations regarding compensation.”
