Instead, we give away our DVD ripper as a demand response," said Mr. Jack, CEO of MacX DVD. "We are convinced the gift will facilitate convenient storage and easy backup of DVDs."

MacX DVD Ripper Pro is a fast DVD ripper that gives DVD a boost for easy preservation, backup and playback. It helps to rip Thanksgiving-themed DVDs to MP4, MOV, AVI, H.264, WMV, MP3 and convert DVDs to videos playable on iPhone 6S, iPad Mini 4, iPad Pro, Galaxy S6 and other gadgets from Apple, Android, Windows and Google. The gift has some niche functions for Thanksgiving movie lovers, including cropping, trimming, adding subtitles and watermark, etc.

"Updating our software to bypass copy protections is something we strive to do year-round," Jack stated.

More good news is that the price of the 100 percent full version, other than giveaway version that won't support future updates, drops to the barest minimum, at only \$19.95. Plus, MacX DVD flaunts incredible "Price Meltdown" door busters on its suite of best-sellers, including 70 percent off MacX Thanksgiving Gift Pack, wrapped with a video streaming program, a DVD ripper, and a [video converter](#) that's undergoing a big enhancement focusing on hardware acceleration to speed up video conversion to a great extent.
