

Matic named to InsurTech100 list of the world's top insurance technology providers

COLUMBUS, Ohio, Oct. 31, 2019 (SEND2PRESS NEWSWIRE) – **Matic**, a fully licensed digital insurance agency that partners with mortgage servicers and originators to sell insurance products to borrowers, has been named to FinTech Global's InsurTech100. The annual awards program, now in its second year, recognizes the pioneering tech firms leading today's global insurance industry.

Send2Press® Newswire

A panel of industry experts selected Matic from a field of more than 1,000 insurtech companies curated by data and research firm **Fintech Global**. Matic was recognized for helping mortgage lenders and servicers tackle the challenge of integrating homeowners insurance into the mortgage process. Its proprietary technology condenses the timeframe required to compare and purchase policies from an average of two to three days to about two to three minutes, greatly speeding up loan transactions and helping mortgage customers save money.

"Matic provides the missing link between insurance carriers and mortgage

companies, adding considerable value for both parties – and their customers – along the way,” said Matic CEO Ben Madick. “Carriers can leverage Matic to deliver a quality-focused online bind experience that decreases claims ratios and underwriting risk, while mortgage lenders and servicers can ‘wow’ customers by making it simpler than ever before to compare and purchase the homeowners insurance required for a home loan. We’re honored to be recognized among this esteemed list of companies transforming the insurance industry through technology.”

“The insurtech industry has seen huge growth in the last two years as insurance companies grapple with the challenges of digital transformation and new demands from customers,” stated Fintech Global in a press release. “Nearly \$10 billion has been invested in insurtech companies since the beginning of 2017.”
