

# Moduline Cabinets Launches Redesigned Website

BROCKTON, Mass., Aug. 13, 2019 (SEND2PRESS NEWSWIRE) – Leading military-grade [aluminum cabinet manufacturer](#), Moduline Cabinets, launched a redesigned website to provide a better user experience. The newly designed website features a re-brand of Moduline Cabinets' logo and color theme, as well as enhancements that include easier navigation and improvements to page speed and design for the shop, product, and information pages. The redesign is largely thanks to listening to customers' user experiences from navigating the website.

Send2Press® Newswire

“We reduced the number of pages a customer navigates to find information about each [modular aluminum cabinet](#) series. By reducing the pages and placing more information and features on the product information pages, our site visitors can find any information they need, buy online, or schedule a consultation with our expert cabinet designers at the touch of a button,” said Tristan Riley, Product Engineer for Moduline Cabinets.

With the more intuitive user interface and uplift to the site design, the website welcomes visitors with a clean, uncluttered design focused on user friendly informative content. Visitors can easily browse Moduline Cabinets'

military-grade and high-alloy [aluminum modular cabinets](#) for garage, shop, trailer and specialty vehicles. The redesigned shop features an improved shop design in the ecommerce platform.

The enhanced navigation lists content our users love to see, including photo and video galleries for garage, shop and trailer cabinet ideas, and contact us buttons to book a consultation or find answers to their questions.

To see the new site, visit: <https://www.modulinecabinets.com/>.

## **About Moduline Cabinets:**

Moduline Cabinets is a premier designer and manufacturer of quality, American-made modular aluminum storage cabinets. Applications include residential homes and garages, vehicles, trailers, commercial and industrial shops, and car dealerships. Moduline Cabinets provides high-quality aluminum cabinet solutions for car enthusiasts and professionals for over 30 years. Our designer appearance enhances garages and shops, and our cabinets stand up against the daily rigors of any environment. Information: <https://www.modulinecabinets.com/>.
