

Myriad Electrical Contractors Promotes New Sales Manager and Becomes Certified ChargePoint Electric Vehicle Charging Station

BLAIRSVILLE, Ga., Dec. 6, 2019 (SEND2PRESS NEWSWIRE) – Myriad Electrical Contractors, myriadec.com, congratulates Dave Nickerson on becoming the new Sales Manager. Dave has also become a certified ChargePoint electric vehicle installer along with several other employees receiving their certifications on air cooled standby generator installation, and photovoltaic system installation.

Send2Press® Newswire

Dave Nickerson, Myriad's newly appointed Sales Manager, has been working for Myriad for nearly 6 years after leaving retail management looking for something different. Already a friend of Vice President of Myriad, Ed Shaffer, he began working with him as a field tech. Several years later Dave became the Residential Field Manager for the company.

Myriad is very excited about the new certifications their team has acquired. Especially their certification allowing them to install ChargePoint electric

vehicle charge stations. They also pride themselves on several of their people having certifications for installing photovoltaic systems.

Myriad Electrical Contractors is a certified electrical contractor located in Blairsville, Ga. and was established in 1995. Their service area includes Georgia, Florida, South Carolina, North Carolina, Virginia, Maryland, Tennessee, Mississippi, Alabama, and Texas. They have twenty-four W-2 employees and five project managers. They specialize in commercial electrical installation and service, small to mid-size health facilities, tenant build-outs, generators, electric car chargers, solar panels, photo-electric power, and back-up power systems.
