The Mission of National Structured Funding™ is to become a leader in the Structured Settlement industry by placing the customer's needs first and by giving them the highest quote and lump-sum payment possible. This is achieved by maintaining a low overhead without spending millions of dollars on television, radio and a vast staff like other companies. "We compete with the large companies by giving our customers more money and by treating our customers how we would like to be treated," says Mark D. Graham, President.

"We purchase income streams that are paying the customer currently, or that pay in the future, such as in five years, 10 years or 15 years+. We can also purchase income streams that pay the customer a lump-sum amount in the future, so they can have their money now."
