

Nebraska's Own Eternal Tattoo has All-Natural Non-Laser Tattoo Removal

COLUMBUS, Neb., Oct. 16, 2015 (SEND2PRESS NEWSWIRE) – Rejuvatek Medical, Inc. officially launches a Tatt2Away (www.tatt2away.com) non laser tattoo removal system in the state of Nebraska. Matt Allsman of Eternal Tattoo and Body Piercing in Columbus has come on board with the company to offer to all its clientele certified tattoo removal as the first Tatt2Away Center in the state. Bringing into their high quality of service and products, the all natural system.

The ability of withdrawing the ink and pigment out of the skin through the Tatt2Away patented process disrupts the previous tattoo's patterns releasing the ink from the dermis. Whether it's a complete removal or just a modification of parts of a tattoo, your options for new art become unlimited.

"Personal satisfaction," Matt said, "is what we aim to give with each tattoo and that satisfaction turns into the Word of Mouth we as a studio are looking for to be spontaneously given at the grocery store, the local bar, or wherever someone asks them, 'Where did you get that great tattoo?'"

Rejuvatek Medical is placing around the nation Tatt2Away systems offering a limited exclusivity to those tattoo studios that see the opportunity first and act on it. For more information, go to <http://studios.tatt2away.com/> or contact Rejuvatek Medical, Inc. at 855-252-2929 or submit a request form from the web site.
