

New EaseUS Data Recovery Wizard 8.8 with Improved Algorithm Increases Search Speed by 50 percent

NEW YORK, N.Y., April 13, 2015 (SEND2PRESS NEWSWIRE) – EaseUS Software, the world leading data recovery solutions provider, today announces the release of EaseUS Data Recovery Wizard 8.8 – the newly upgraded data hard drive data recovery software. EaseUS Software always focuses on enhancing users' real feelings and experiences while performing data recovery. This upgrade improves the software algorithm and increases search speed by 50 percent.

More and more users take action to protect their data; however, inevitable data disasters or unexpected situations still may happen to them. That's the reason why EaseUS Software always keeps the idea of helping users solve their own data cases effortlessly as their development goal and promoting efficiency.

EaseUS Data Recovery Wizard, with its simple and user-friendly interface, benefits most users in the data recovery software market. It provides reliable data recovery solution to save all kinds of data loss scenarios, and enables users to recover unlimited types of files from PC/laptop, hard drive, lost or raw partition, USB drive, memory card, digital camera, music player or other storage devices; due to deleting, formatting, partition loss, partition inaccessibility, virus attack or other unknown reason.

Users only need 3 simple steps to retrieve all the lost data. And EaseUS Data Recovery Wizard 8.8 greatly improves the recovery speed, and really realizes the fastest and safest data recovery.

"We are proud of this new upgrade of EaseUS Data Recovery Wizard," said Boa Wen, the PM of EaseUS data recovery software and the leader of its R&D team. "After the test, the recovery speed of EaseUS Data Recovery Wizard 8.8 is faster than other recovery software in the market. I think users will like it more."
