

# New Sacramento Accident Study Identifies and Maps Roads with Highest Hit-and-Run Rates

SACRAMENTO, Calif., April 29, 2020 (SEND2PRESS NEWSWIRE) – AUTOACCIDENT.COM – According to the AAA Foundation for Traffic safety, a hit-and run-accident occurs about 60 times per minute. 36% of hit-and-run accidents in Sacramento between 2017-2018 have resulted in injury or death.

Send2Press® Newswire

In an effort to raise awareness and reduce the occurrence of hit-and-run accidents in Sacramento, AUTOACCIDENT.COM has commissioned a study to compile and analyze hit and run data in Sacramento. Data was compiled using CHP's I-SWITRS records system.

The findings are reported through a series of charts and graphs that outline the most prevalent locations for hit-and-run accidents throughout the city. The charts are accompanied by a detailed analysis of the findings.

**The data shows that the roads with the highest rate of hit-and-run accidents include:**

- US-50
- SR-99
- I-5
- SR-51
- I-80
- 12th Ave
- Fruitridge Rd
- Florin Rd
- Stockton BL
- J Street

In addition to the data compilation, charts and analysis AUTOACCIDENT.COM also provides an overview of the legal responsibilities of drivers after an accident occurs.

AUTOACCIDENT.COM aggregated data on hit-and-run accidents to produce several graphics including an interactive map to chart the locations of hit-and-run accidents in Sacramento.

The complete study details and interactive map are available at:
