

Ohio Marijuana Card to Give Away 15 Free Evaluations Per Month to Those in Need

CLEVELAND, Ohio, April 25, 2019 (SEND2PRESS NEWSWIRE) – Ohio Marijuana Card, Ohio's largest provider of medical marijuana evaluations, will be giving away 15 free medical marijuana evaluations each month in an effort to help patients in financial need offset some of the cost of medical marijuana at dispensaries.

Send2Press® Newswire

Medical marijuana costs throughout Ohio are currently significantly higher than in neighboring states as the program rollout delay has limited product availability. Ohio Marijuana Card already allows patients to pay for their appointment with installment payments, in addition to extending a \$100 discount to veterans.

"We are growing concerned that the current elevated price of medical marijuana at Ohio dispensaries is making the program financially unfeasible," said company president Connor Shore. "Many Ohioans currently suffering from serious medical conditions simply cannot afford the cost. While we have no control over the pricing at dispensaries, we are still trying to help in a

small way.”

Shore explained, “Patients can submit a request for an appointment fee waiver on our site. We only ask that qualifying patients explain their situation, be honest and understand that we cannot help everyone.”

Ohio Marijuana Card operates 9 locations throughout Ohio and according to the latest Board of Pharmacy numbers, has seen more than 50 percent of patients currently with a recommendation.
