

Online Sage 300 ERP Education Series Offered by HBM Integrated Technology

HALIFAX, Nova Scotia, Aug. 1, 2012 (SEND2PRESS NEWSWIRE) – HBM Integrated Technology Inc. (www.hbmintegrated.com) announced today its “Summer School at HBM,” a webinar series featuring five educational presentations for accounting, human resources and sales and marketing professionals who use Sage 300 ERP (formerly Sage ERP Accpac).

The series kicks off with the first program “Everything You Always Wanted to Know about Accpac General Ledger” on Thursday, August 9 at 1 p.m. ADT (Atlantic Daylight Time). Information and registration can be found at: http://www.hbmintegrated.com/accpac_webinars.html#summerschool .

“The series was designed to address the most frequent questions solution end users have about the software,” said Garry Beattie, CMA, president of HBM Integrated Technology. “The presentations will help Sage 300 ERP users to get the most out of the aspects of the software they are currently using as well as learn where they might further the benefits of automation and reporting. All of which contributes to a greater return on investment. But more important, it allows them to offload tasks that can be automated and gain more time for more strategic business activities.”

Other online presentations in the series include:

- * August 13 – Using Sage Intelligence to Eliminate Manual Transfer of Data from Accpac to Excel and Improve Reporting.
- * August 27 – Sage Summit Update.
- * September 6 – Using CRM in Finance to Improve Cash Flow and Customer Service.
- * September 20 – Using Printboss to Save Money and Improve Customer Service through Forms Management.

The events take place online, Thursdays at 1 p.m. ADT (12 p.m. EDT). There is no cost, but registration is required and can be completed at http://www.hbmintegrated.com/accpac_webinars.html#summerschool or by calling 902-442-3892.

About Sage 300 ERP (formerly Sage ERP Accpac):

The Sage 300 ERP system is, at core, a sophisticated accounting and operations system for small and mid-sized businesses. Sage 300 ERP also offers HRMS and CRM applications.
