

Paragon Puts Ilast® Center Stage

PORTLAND, Ore., Nov. 8, 2013 (SEND2PRESS NEWSWIRE) – Leading biopharmaceutical company Paragon BioTeck, Inc. announced today that it plans to launch its new line of products, known as Ilast®, at the Annual American Academy of Ophthalmology meeting in New Orleans. Paragon signed an exclusive [distribution agreement with Horus Pharma](#) to supply Ilast® ocular care products in the U.S. last month, and the company is excited to release these products to ophthalmology professionals.

About Ilast:

Ilast® is a scientifically-formulated line of lid care and ocular hygiene products designed to support the health of the eye and the tissue that surrounds it. Ilast is free from preservatives, thus eliminating many of the allergenic and cytotoxic properties that often cause irritation to the delicate skin around the eye. Ilast products are manufactured using a patented process known as Epifree® Technology.

This process uses low-temperature sterilization to maximize the effectiveness of active ingredients while simultaneously maintaining the microbiological integrity of the product.

About the Annual American Academy of Ophthalmology:

The American Academy of Ophthalmology is the most expansive association of eye care providers, including osteopathic doctors, medical doctors and ophthalmologists in existence. The Academy works to support the professional interests of eye care providers, as well as to promote continuing education and lifelong enrichment.

At the Academy's annual meeting, eye care professionals can attend educational sessions, view exhibits and learn about the newest developments in the field of ophthalmology. This year's meeting is scheduled to take place from November 16 to November 19, 2013.

About Paragon BioTeck, Inc.:

Paragon BioTeck is a privately-held, ophthalmic-focused biopharmaceutical and medical device company pursuing the development and commercialization of products addressing unmet medical needs in the fight to protect and preserve eyesight. For more information on the company and its work, visit <http://www.paragonbioteck.com/>.
