

PassFab 4WinKey Releases Version 7.0.0 with New UI and All-in-One Feature

NEW YORK, N.Y., Nov. 25, 2019 (SEND2PRESS NEWSWIRE) – PassFab 4WinKey has just launched a new version. The product is newly designed with collection of all features in one package, allowing users to choose what feature to buy flexibly. 4WinKey is a Windows password recovery tool that can help to burn Windows a bootable disk and remove Windows passwords quickly and easily without reinstalling the system.

Send2Press® Newswire

“This is the best and wonderful Windows password reset tool that I have met,” said Aria Smith, a user of PassFab software. “I lost my Gateway laptop Windows 10 login password and have no way to open it. My friend suggests this 4WinKey to me, I trust him and purchase it. I love the blue user interface and it doesn’t let me down. It resets my login password successfully. The most important is that I don’t lose any data.”

Key features of PassFab 4WinKey:

1. Recover Windows Password

- Remove local Windows administrator password, domain password or local

guest password

- Reset your Windows / Microsoft account login password to regain access to your locked PC
