

PearlMountain Launches DesignEvo that Enables Everyone to Make Professional Logos for Free

CHENGDU, China, Sept. 5, 2017 (SEND2PRESS NEWSWIRE) – PearlMountain is proud to announce the new release of DesignEvo, a free online logo maker that helps users make unique and professional logos. The logo is the most essential part of making any brand recognizable. Hiring a professional designer to create a custom logo can definitely be expensive, especially for most small business owners and individuals who don't have the budget. Fortunately, the release of DesignEvo allows everyone to create professional logos without using complicated design software or hiring a professional designer.

“We are thrilled to launch DesignEvo. It will help a lot of people create professional-looking logos without spending much and without wasting time. Whether you're a small business owner or a start-up who needs a logo design for branding and marketing needs but don't have a budget, DesignEvo is a great solution for you,” says Lin Xiao, the CEO of PearlMountain Limited.

DesignEvo makes it simple and stress-free to turn any brand identity into visual art. By searching through millions of professionally designed icons, adding logo texts and editing with little effort, users have a custom logo ready to download, fast and time-saving. People who don't have the time, experience, or the budget to pay a designer can have DesignEvo as their free

logo design expert.

The ease of use, free to access, and user-friendly features set DesignEvo apart from its competitors. Users have complete control over how their logos should look like. They are able to boost their creativity with tons of icons and text fonts to choose from. Anyone, regardless of their design experience, can create unique logos in minutes and use on their websites, shirts, business cards, letterheads, social media, and any other marketing presence.

“We aim to make the logo design process simple, fast, effective, and free. DesignEvo eases the process of logo design, and we hope it helps more people to create compelling logos that can take their business/brand to the next level,” says Lin Xiao.

DesignEvo assists everyone in creating professional and attractive logos at absolutely no cost. It works in any browser, with no need to register and download.
