

PitBullTax Software to Unveil Stand-Alone Transcripts Delivery and Reporting Product

CORAL SPRINGS, Fla., Oct. 26, 2016 (SEND2PRESS NEWSWIRE) – PitBullTax Software, the industry leader in IRS Tax Resolution software, is excited to announce that it's unveiling a new flagship product – PitBullTax Transcripts – a stand-alone IRS Transcripts Delivery and Reporting software. The product will launch at the [National Conference of Bankruptcy Judges](#) in San Francisco from October 26-29; it's sure to create some buzz.

Send2Press® Newswire

“We chose this venue to debut this new stand-alone IRS Transcripts Delivery and Reporting software because it's geared to tax resolution and bankruptcy professionals who need a more economical way to obtain IRS transcripts,” Jaime S. Buchwald, CPA and CEO of PitBullTax Software, says. “Many tax and bankruptcy pros spend thousands of dollars each year, but with our new revolutionary software they can now request unlimited IRS transcripts and get analytical reporting in just a few minutes for the amazing price of only \$249.97 per year. That's an unbelievable savings.”

In addition to dramatic cost savings, there are many other benefits too. Here's how it works.

To use PitBullTax Transcripts a user should have an IRS e-services account

(which can be registered for free) and fax a Power of Attorney or Tax Information Authorization to the CAF unit of the IRS. Users can then receive unlimited IRS Transcripts, auto-generated and customizable IRS Transcripts summary reports that include features such as: earliest dates for bankruptcy dischargeability; current tax liabilities, penalties and interest; compliance information; estimated Collection Statute Expiration Dates (CSED); civil penalties; account transcript summary and payment history; and more.

One exciting feature is the daily email alerts. These allow tax professionals to easily stay on top of any status changes to their clients' IRS accounts weeks before they get an IRS notice in the mail. For example, they'll be the first to know about important actions such as upcoming audits, tax court petitions or bankruptcy filings.

"There are no more pay-per-period or extra fees for bankruptcy dischargeability reports," Buchwald says. "Our new software allows users to manage more cases and make more money in the least amount of time possible."

Two versions are available: an integrated version which is an add-on to the flagship PitBullTax Software or a standard, stand-alone version, PitBullTax Transcripts. Both have the same great features and are available for a monthly fee of \$24.97 or an annual fee of \$249.97.

Either version is ideal for CPAs, Enrolled Agents, tax and bankruptcy attorneys, tax preparers and other accounting professionals. It's the smarter way to get IRS transcripts.
