Send2Press® Newswire

Inspired by the healing women in her neighborhood, Jennifer T created a space to teach her followers about the inner workings of modern witchcraft, adding a touch of Platinum Deluxe® skin care to an otherwise bland and misunderstood market. Designed to bring her beauty approach to life, a Platinum Collection was created to coincide with each product. From glowing in the Advanced Biology range, Radiance and Anti-aging collections as well as Skin Caviar to the new Platinum rage.

Each piece is infused with Platinum to enhance and finish their skin-perfecting regime with Anti-Aging Eye Cream.
