

Powers of Arkansas Receives Siemens National IFO of the Year Award

NORTH LITTLE ROCK, Ark., April 23, 2019 (SEND2PRESS NEWSWIRE) – Powers of Arkansas, the state’s largest commercial HVAC company based in North Little Rock, Arkansas, announces that the company has received the Siemens Building Technologies 2018 Field Office (IFO) of the year award. This award is a highly competitive national award presented to a Siemens partner annually.

Send2Press® Newswire

The award is measured on several categories including purchase volume, year over year sales growth and customer satisfaction.

“We are very proud and pleased to receive this national honor from Siemens Building Technologies,” said Alan Hope, CEO of Powers of Arkansas. “This award, from one of our most important partners, confirms our dedication to employing quality people who share our vision of making customers for life. Our growth and success in this market is driven by this shared vision and the hard work and dedication of our employees. The support and quality products we receive from Siemens, give us the tools to be a world class company.”

“Our partners are critical to our success and we are honored to recognize Powers of Arkansas as the 2018 Siemens IFO of the Year,” said Kevin Krouch,

Senior Sales Manager, Siemens Building Technologies. "Powers has exhibited exceptional performance and demonstrated success in working closely with both new and existing customers. At Siemens, we believe in helping you create a perfect place – perfectly designed for its purpose...a place to learn, a place to develop, a place to grow, a place to succeed. Through their focus on the unique needs of each customer and their core values of cost control, energy efficiency, environmental comfort, and creating customers for life Powers of Arkansas has created many perfect places. We are proud to have been affiliated with them since 1985 and commend them again for this achievement."
