

Qualia Connects to AgentNet from First American for Integrated Title Services

SAN FRANCISCO, Calif., March 15, 2017 (SEND2PRESS NEWSWIRE) – Qualia, the fastest growing provider of title settlement software, announced it has integrated its namesake settlement platform with AgentNet® from First American Title Insurance Company, a leading provider of title insurance and settlement services and the largest subsidiary of First American Financial Corporation (NYSE:FAF).

Send2Press® Newswire

The integration enables title agents to generate Closing Protection Letters (CPLs) and policy jackets directly from the Qualia system, eliminating the need to rekey data and work across multiple systems. In addition, the integration also allows title agents to calculate rates and fees directly through Qualia, which significantly reduces the possibility of remittance errors.

“The ability for title agents to operate within a single system not only increases overall efficiency, but it also dramatically decreases the number of errors and redundancies that can slow down the title process,” said Nate Baker, CEO of Qualia. “Our integration with First American ensures title agents have access to everything they need directly within the Qualia platform, creating a more streamlined title process.”

About First American Title Insurance Company:

First American Title Insurance Company, the largest subsidiary of First American Financial Corporation ([NYSE:FAF](#)), traces its history to 1889. One of the largest title insurers in the nation, the company offers title services through its direct operations and an extensive network of agents throughout the United States and abroad.
