

# Quandis Hires New Employees to Handle Increasing Demand for its Default Servicing Technology

FOOTHILL RANCH, Calif., Aug. 30, 2013 (SEND2PRESS NEWSWIRE) – [Quandis, Inc.](#), a leading provider of default management technology solutions, announced that it hired technical staff members across the board to prepare for a growing demand for its Web-based software applications.

The company recently added new developers, business analysts, project managers and support staff to help manage the anticipation of new business and also to service existing clients.

“The industry’s need for our solutions has been growing over the past few years and we see it continuing to do so at a steady rate,” said [Scott Stoddard](#), CEO of Quandis. “As such, we are taking measures to ensure that we are well-prepared to board new clients and effectively support our existing customers.”

Specifically, the new hires will focus on Quandis’ applications that include its valuation system, short sale portal, skip trace application, default module, military search service, pacer search service, and attorney compliance module, among other custom solutions.

In 2010, Quandis relocated to a larger facility in order to prepare for growth and house additional staff members. The company hosts the majority of its clients in the cloud with secure data centers on a software-as-a-service (SaaS) basis.

Quandis caters to servicers, default attorneys, lenders, banks, GSEs, collections agencies, outsourced service providers, agents, and other members of the default servicing supply chain. The company provides a wide-ranging breadth of [Web-based, configurable solutions](#) that integrate seamlessly with disparate applications. Quandis’ management team is comprised of business people and technologists who possess deep experience in the default servicing sector of the mortgage industry.

## **About Quandis:**
