Recovery Rye is an Indiana grown and distilled straight rye, available in restaurants and retail locations across Indiana. Proceeds of every bottle sold goes to the Indiana Restaurant and Lodging Association (INRLA.org,) which provides grants to bartenders, servers and other hospitality workers who are experiencing financial hardship during the shutdowns associated with Covid-19.

This month, INRLA was presented a check for \$15,810.

“Recovery Rye has been a success beyond my wildest dreams,” says Katz. “We’ve started a second run, and we’re thinking about how we can keep up this pace, and be even more helpful.”

Said Johnston, “Anytime you have a quality product and a clear mission, you’re going to be successful. And Hoosiers from across the state of Indiana made sure it was!”

Recovery Rye is 45% ABV (90 proof) aged 27 months and is described as, “An exceptionally smooth rye with Midwest sublime sweetness that was grown and distilled in Indiana.” As of now, Recovery Rye is only available in Indiana.

“We look forward to doing this again,” said Katz. “The hospitality industry has a long way to go before it’s back at full strength. We hope everyone in Indiana continues helping. Buy a bottle of Recovery Rye, and enjoy a drink responsibly this Christmas and New Year’s.”
