

RETRACTED: Minority Snow Removal Company to Service Auto Giant Headquarters

TDE Group has had to “retract” this press release. An updated version is expected to be issued in the coming weeks.

About TDE Group:

Snow removal is TDE Group’s full-time business and it is one of the largest snow/ice management companies in North America. It’s minority-owned and focuses on servicing large facilities, mostly manufacturing plants that run operations 24/7. Its client portfolio includes several of the largest automotive assembly plants in Michigan, Ohio and Ontario. It also has a large municipal fleet.

With more than 30 years of industry experience, TDE Group enjoys industrial critical snow/ice management services and salt-buying power like no other company in Michigan.
