

ReverseVision's Jeff Birdsell Recognized as MBA Tech All-Star for Long-Term Contributions to Mortgage Industry

SAN DIEGO, Calif., April 5, 2016 (SEND2PRESS NEWSWIRE) – Jeff Birdsell, CMB and vice president of professional services for ReverseVision, Inc. (reversevision.com), today was honored with Mortgage Banking magazine's Tech All-Star award. Mortgage Bankers Association (MBA) Chief Economist Mike Fratantoni and Mortgage Banking Editor-in-Chief Janet Hewitt presented Birdsell with the award during the MBA's National Technology in Mortgage Banking Conference & Expo 2016 in Los Angeles, California.

"Every year since 2002, Mortgage Banking magazine has been honoring the people building the pioneering solutions that are transforming our industry today," said Fratantoni. "They are designing state-of-the-art mortgage lending and servicing processes."

Birdsell was recognized along with individuals and teams from eight other organizations at the awards ceremony, which is in its 15th year. The MBA Tech All-Star awards celebrate leaders who have made significant contributions to mortgage technology.

"Tech All-Stars are often unsung heroes of the industry, because much of what they do takes place behind the scenes, but we couldn't survive without them," Fratantoni said.

"I am honored to stand among such an accomplished field of peers as a representative of our growing corner of the industry," said Birdsell, who was acknowledged for his role as one of the industry's most sought-after technology experts and a key influencer in the revival of reverse mortgage origination among smaller banks and independent lenders. "It's my driving motivation to provide technology solutions that help lenders make the most of the opportunities afforded by reverse lending."

Birdsell has been a prime contributor to some of the industry's most prolific software solutions over the course of his 25-year career. Most recently, Birdsell helped introduce ReverseVision's RV Exchange (RVX) reverse mortgage software. More reverse loans are originated monthly using RVX than all other systems combined.

"Jeff has a unique pedigree that lends valuable perspective to his work in the reverse mortgage field," said ReverseVision Marketing Director Kelly Kelleher, also present at the ceremony. "He's an expert in reverse mortgage technology, but he also holds a degree in business finance. He's not only a product developer but a respected industry speaker and educator. We can think of no one more worthy of this recognition."

About ReverseVision:

Recognized as a Deloitte's 2015 Technology Fast 500(TM) Company, ReverseVision, Inc. (<http://www.reversevision.com/>) is the leading software and technology provider for the reverse mortgage industry, offering products and services focused exclusively on reverse mortgages.
