

# Right at Home Dayton Partners with ClearCare to Bring Revolutionary Homecare Management Technology to Dayton

DAYTON, Ohio, April 16, 2014 (SEND2PRESS NEWSWIRE) – Right at Home – Dayton announced today that they are partnering with ClearCare to implement new technology that aims to help local seniors live independently as long as possible. The ClearCare technology is revolutionizing the home care industry and Right at Home-Dayton is the first established company in the Miami Valley to provide it to its clients and staff.

The comprehensive home care system utilizes iPads/tablets, smartphones, and the latest software technology to connect professional home care providers with everyone else involved in a client's care (including seniors themselves and their family members).

"I'm in this business because I believe that seniors and adults should have the highest quality care available," says Michael Manes, the owner of Right at Home-Dayton. "That's also the reason I decided to implement ClearCare's technology. Not only does it make our services more efficient and transparent, it allows us to keep families involved and informed in real time, which is a big priority for me."

Using ClearCare, the agency's team of trained caregivers can access their schedules, clock in and out, and report instantly on the status of the client's care from the home, from a designated smart phone or tablet (such as an iPad), or from the client's home phone. In addition, clients' families can log in to the ClearCare portal to find out what is happening in the home in real-time.

ClearCare's web technology makes the business of home care administration intuitive, efficient, and paper-free which will help Right at Home-Dayton to continue to provide the highest level of service and quality and exceed client expectations. "The ClearCare solution automates our back-office tasks, which means we will have more time to focus on bringing quality home care to more seniors and adults in the Miami Valley," says Manes.

This cutting edge technology is just another example of how Right at Home-Dayton continues to set the standard in the home care industry. For more information about Right at Home-Dayton, visit <http://www.rightathomedayton.com/> or call (937) 291-2244.
