

# Right Hand Technology Group Ranked Among World's Most Elite 501 Managed Service Providers

PITTSBURGH, Pa., Aug. 13, 2020 (SEND2PRESS NEWSWIRE) – Right Hand Technology Group has been named as one of the world's premier managed service providers on the prestigious 2020 annual Channel Futures MSP 501 rankings.

Send2Press® Newswire

For the 13th year running, MSPs from around the globe completed an exhaustive survey and application this spring to self-report product offerings, annual total and recurring revenues, profits, revenue mix, growth opportunities and company and customer demographic information. Applicants are ranked on a unique methodology that weights revenue figures according to long-term health and viability; commitment to recurring revenue; and operational efficiency.

Channel Futures is pleased to name Right Hand Technology Group to the 2020 MSP 501.

"We are both thrilled and honored to be recognized once again as one of the top MSPs in the world," said Josh Wilhelm, President of Right Hand Technology Group. "Our team's absolute commitment to process driven delivery shows

through this award, our client's loyalty, and our continual growth."

In the 13 years since its inception, the MSP 501 has evolved from a competitive ranking list into a vibrant group of service providers, vendors, distributors, consultants and industry analysts working together to define the growing managed service opportunity.

"For the third year running, the applicant pool for the annual MSP 501 has grown year-over-year, making this year's list the most competitive in the survey's history," says Kris Blackmon, Senior Content Director at Channel Partners and Channel Futures. "The MSP 501 leveraged judgement methodology brand-new in 2020 to drill down into not just what makes a big managed service provider, but what makes a great managed service provider. The 2020 winners are truly the best examples of innovation, business acumen and strategic savvy on the planet. We extend our heartfelt congratulations to the 2020 winners and gratitude to the thousands of MSPs that have contributed to the continuing growth and success of both the 501 and the thriving managed services sector."

Ten MSP 501 special award winners will be recognized at the MSP 501 Awards Gala at [Channel Partners Virtual: Digital Events for the Modern Channel](#) on September 8 – 10. Nominations for these special awards, including Digital Innovator of the Year, Executive of the Year and the Newcomer Award, were included in the MSP 501 application, and all candidates were encouraged to submit for them.

The data collected by the annual MSP 501 program drives Channel Partners's and Channel Futures's market intelligence insights, creating robust data sets and data-based trend reports that support our editorial coverage, event programming, community and networking strategies and educational offerings. It serves as a lynchpin to dozens of programs and initiatives.

The complete [2020 MSP 501 list](#) is available at Channel Futures.

## **Background**

The 2020 MSP 501 list is based on data collected by Channel Futures and its sister site, Channel Partners. Data was collected online from Mar. 1 through June 30, 2020. The MSP 501 list recognizes top managed service providers based on metrics including recurring revenue, profit margin and other factors.

## **About Right Hand Technology Group**

Right Hand Technology Group, Inc. was founded on a very simple idea – that your IT and Cyber Security company should have your back. Our experts plan, monitor, and manage our clients' technology to allow them to focus on their own business growth and organizational success. We have implemented mature processes based on the National Institute of Standards in Technology (NIST) framework to give our clients complete confidence in our services. Every eligible member of our technical team is security certified because IT management should focus on expediency but not at the expense of security.

With the right team in place we help companies find and maintain the proper balance between the two.
