

RSU 74 Becomes First Maine School District to Select Synergy

MESA, Ariz., July 19, 2016 (SEND2PRESS NEWSWIRE) – Edupoint® Educational Systems has been selected by RSU #74 to implement their industry-leading Synergy® Education Platform to meet the district's student information, learning management and assessment needs. RSU #74 is the first school administrative unit (SAU) in Maine to select Synergy since Edupoint was selected by the Maine Department of Education as the sole provider of a State Level Student Information and Reporting System (SSIRS) to aggregate data from all SAUs for Maine's 180,000 students.

Send2Press® Newswire

The agreement provides SAUs the option to license Synergy directly through the Maine DOE at pre-negotiated rates without needing to go through the bid process.

RSU #74, located in central Maine, supports students from the towns of Anson, Embden, New Portland, North Anson and Solon across four campuses. The district has selected Synergy Education Platform to replace its existing PowerSchool system with a solution that is seamlessly integrated from the ground up for full interoperability. RSU #74 will be implementing a rich combination of available Synergy Education Platform components, including Synergy SIS, TeacherVUE® with Gradebook, the ParentVUE® and StudentVUE® portals, LessonVUE® Curriculum Management and Synergy Assessment.

With the Synergy platform, RSU #74 will enjoy the most powerful SIS in K-12, comprehensive assessment, learning and curriculum management, analytics, and role-based mobile applications, while benefiting from real-time systemwide data connections that help improve administrative processes and learning outcomes. In addition, by choosing a hosted solution, the district will be able to utilize Synergy in the cloud, which will not only eliminate the need for IT staff to focus on day-to-day hardware maintenance but will also provide continuous monitoring of the district environment, all while still having backend access to the Synergy database.

“We are pleased to welcome RSU #74 as our first Synergy district partner in Maine,” says Bob Weathers, Founder & CEO of Edupoint. “Synergy will provide RSU #74 with a single solution for teachers, administrators, students and parents, promoting collaboration and improving student data reporting accuracy and student learning outcomes. We look forward to streamlining the student information and learning management experience for RSU #74 and future Maine SAUs as we continue our partnership with the State to provide Synergy in a cost-effective manner to help improve student success.”

RSU #74 is planning a phased implementation of the full Synergy Education Platform with the SIS fully operational in August 2016.

About Edupoint Educational Systems:

For more than thirty years, the leadership of Edupoint Educational Systems has provided well designed, technologically advanced student data management systems that empower all K-12 stakeholders with the tools they need to improve student achievement. The Synergy Education Platform is a suite of integrated solutions that includes Synergy SIS, the most powerful K-12 student information system available today, Synergy LMS, an all-in-one learning management and assessment platform, and Synergy Special Education, a comprehensive special education data management system.

More than a data management tool, Synergy is a collaborative environment that facilitates improved communication between educators, administrators, parents and students resulting in better instructional decisions at all levels. To learn why thousands of schools across the country use the Synergy Education Platform to manage more than 3.5 million students, visit <http://www.edupoint.com>.
