

Save Cost with Free System Deployment – EaseUS Deploy Manager Special Edition

NEW YORK, N.Y., April 16, 2014 (SEND2PRESS NEWSWIRE) – EaseUS Software (<http://www.todo-backup.com/>), the leading provider for cost-effective data backup, disaster recovery and storage management software, today announces the release of a new edition of its famous system deploy tool – **EaseUS Deploy Manager Special Edition**.

EaseUS Deploy Manager is the ideal solution for system deployment to multiple computers or servers simultaneously, which provides maximum flexibility and drives down corporate cost. And this new EaseUS Deploy Manager Special Edition allows one to deploy a system image to 10 machines (including PCs, workstations and servers) for free.

As an easy-to-use system deployment tool, EaseUS Deploy Manager will execute the system deployment automatically after the user creates a task and runs it.

And the following are some key features:

- * Help IT admins deploy master image to multiple PCs or Servers simultaneously.
- * Available to deploy several groups with different system images or settings.
- * Able to boot from WinPE and add drivers to ensure it works on new hardware.
- * Support Wake-on-LAN to remotely power on or wake up computers.

“In order to help business users upgrade Windows XP to Windows 7/8 easily and safely, EaseUS releases EaseUS Deploy Manager Special Edition,” says Wan Jianhua, Vice President of EaseUS Software. “We are confident this new edition will greatly save the time and energy spent by system upgrades in SMBs.”

In addition, EaseUS Software also recommends **EaseUS Todo Backup** to ensure the system and data security after successful system deployment.
