

CA SB277: Marin Chiropractor Dr. Harte Charges California with 'Chemical Child Molestation'

CORTE MADERA, Calif., June 30, 2015 (SEND2PRESS NEWSWIRE) – Dr. Don Harte, Marin chiropractor, notes with disgust, “Today, June 30th, California Governor Brown signed SB277, stripping away both personal belief and religious exemptions for childhood vaccinations.”

“In his ‘signing message,’” says Dr. Harte, “the governor says ‘The science is clear that vaccines dramatically protect children against a number of infectious and dangerous disease.’ What the governor refers to is not science; it is whored-out pseudo-science bought and paid-for by Big Pharma. And, just to be accurate, one of those diseases is not infectious, and several are not dangerous.”

“There are two basic problems, here, that have brought about this sad day in California,” according to Dr. Harte. “The first is that society assumes that whatever Medicine says must be true, must be scientific, and must be for the public good. A lack of critical thinking in science is always disastrous. So, let’s think! Medicine has figured out a way to circumvent the normal pathways of the immune system with vaccines, upping their ‘effectiveness’ by adding a number of poisonous substances that no one would tolerate in their water supply. That’s the relatively theoretical part of this.”

“Medicine’s historical mythology,” declares Dr. Harte, “is based upon a grotesque lie. The old scourges of infectious disease went away due to modern sewage systems, clean water, refrigeration, etc. There was a polio epidemic in the 1920’s, which disappeared without any vaccine.”

Dr. Harte goes on. “The proof in the pudding is that, as the number of required vaccinations has gone from five to 89, previously rare childhood disease have now become commonplace – autism, Type I diabetes, life-threatening allergies, juvenile arthritis, leukemia, asthma and Crohn’s Disease. In these couple of generations, the environment has gotten cleaner, except for the internal environment of the children, polluted by mercury, aluminum, formaldehyde, ethylene glycol, MSG, etc.”

“The second basic problem,” according to Dr. Harte, “is that of Big Brother in a White Coat. People are willing to give up liberty, even do damage to the parent-child bond, to secure some false sense of medical security, and our power-mad politicians are eager to take that liberty.”

“I charge the governor and every legislator who voted for SB277, this piece of medical Nazism, as destroyers of the family, enemies of liberty and chemical child molesters,” says Dr. Harte. As a note to parents, he states, “If my son was still in school, I’d be thinking of methods of resistance.”

Dr. Don Harte, former medical student, is a straight chiropractor serving Marin and the Greater Bay Area since 1981. He is an activist in the struggle for free speech for chiropractors. Dr. Harte was named 2006 "Chiropractor of the Year" by the World Chiropractic Alliance (WCA). He has served on the Boards of the WCA and the Council on Chiropractic Practice. His articles have been published in OMNI magazine, San Francisco Chronicle, Chiropractic Journal and Journal of the California Chiropractic Association.
